SIGNPOST

What is Signpost?

Signpost is a hands off CRM and automated marketing platform designed to drive the outcomes that matter most to small businesses.

Features:

1. Know Your Target Market
2. Identify Your Competition
3. Know Your Competitive Advantage
4. Find Demand Generation Channels
5. Set Your Marketing Budget
6. Track Your Success

Why Our Module?

Sync your clients to your Signpost account in real time!

Use our Signpost extension for Magento to sync your Magento clients in real time to your Signpost account. Setup takes 2 minutes, and all syncing is in the background. When a customer signs up in Magento, they will be immediately imported into Signpost for you to intelligently market to them!

Installation Instructions

Step 1: Upload extension folder via ftp or install extension via Magento Connect from Magento admin.

Step 2: After uploading, go to System > Configuration, then Signpost Sync in the left sidebar.
